

DANGER!

Fact: It has been proven that electromagnetic fields affect the human brain and body.

Fact: Cell Phone radiation tremendously impairs membranes of the circulatory and nervous system.

Fact: A two hour exposure to EMFs can lead to permanent DNA breaks (damage) in the brain.

Fact: The radiation penetration in a child's head after Cell Phone use is 50% or more.

Fact: Rats exposed to two (2) hours of Cell Phone radiation showed significant blood vessel leakage and damaged neurons.

Fact: Dr. Charlie Teo, a prominent Australian Neurosurgeon, states there has been a 21% increase in brain tumors in children in recent years. Brain tumors are now the number one life threatening disease for children, even above Leukemia! There has been a 40% increase in brain tumors in Australia over the past 20 years, which coincides with Cell Phone usage!

Fact: Senator Lyn Allison of Australia states that the fact that brain tumors are the number one life threatening disease for children is consistent with studies in Europe and the UK.

Fact: EMF disrupts your natural energy levels, causing stress responses. This impairs the body's natural ability to heal and contributes to energy depletion and fatigue.

Fact: EMFs cause significant increases in blood pressure.

Fact: Men who regularly carry a cell phone could have their sperm count reduced by 30%. Those who place their phone near their groin, on a belt or in a pocket, are at greater risk!

Fact: Brain cancer has increased in the US by 25% in the past 30 years.

How Many Harmonizing Chips?

Cell Phone	One Chip
Cordless Phone	Two Chips
Desktop Computer	Three Chips
Laptop	Three Chips
Handheld Computer	One Chips
Game Station	Three Chips
TV	Two Chips
Refrigerator	Two Chips
Microwave	Four Chips
Hair Dryer	Two Chips
Automobile	Three Chips
Vacuum Cleaner	Two Chips
Coffee Maker	One Chip
Alarm Clock	One Chip
Electric Fan	One Chip

EMF RADIATION PROTECTION

EMF RADIATION PROTECTION

Protection, Health & Energy

Powerful EMF Protection

- Harmonizes the Effects of EMF
- Backed by Impressive Research
- No Maintenance Required & Indefinite Operation

HARMONIZER CHIP

CERTIFIED

Research Institute
for Vital Energetics

RE: CERTIFICATE FOR CELL-PHONE CHIP

Date: June 3, 2003

Dear Sirs,

In accordance with your order from February 2003, a mass screening took place in our Institute between the end of February until mid-April 2003, testing the effects of mobile phones on the energy situation of human organisms, using test-individuals of different ages.

The tests were carried out with VEGATEST II from GRIESHABER, Inc., Germany. As measuring points, the terminal points AI1 and 3E1, as well as 3E21 were used and measured on both sides.

Your assigned task involved to examine the impact of mobile phones' field intensities on human organisms. A statistical verification of the sampled data with 't-Test' revealed with all individuals tested, that a significant adverse variance from normal healthy status exists – on average ranging from 20 scale units up to pathological ranges.

In a second test run on the backside of the mobile phones (where the equipment appears to cause a high electromagnetic 'pollution' of human organisms), two of your provided Chips were attached to each phone. The test showed that when using the Chips, the potential of harming the organism is reduced to an absolute minimum and can therefore be ignored.

The Research Institute for Vital Energetics hereby permits you to publish this summary and the already transmitted, analyzed spreadsheets in print media, TV, radio and other acoustic or visual media, as well as on the Internet.

Yours sincerely,

Dr. Horst Braun

CELL PHONE EMF – THERMOGRAPHIC IMAGING

! DANGEROUS RADIATION:

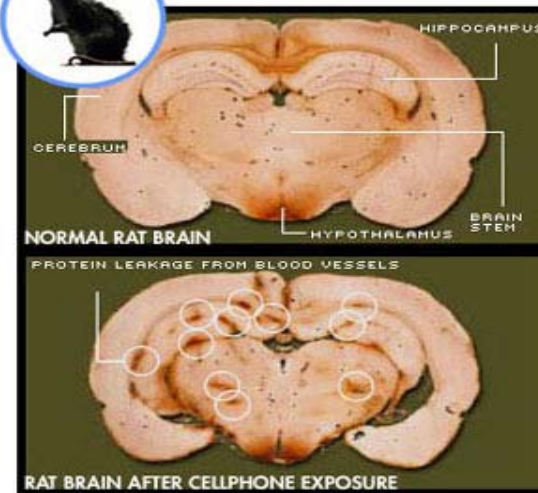

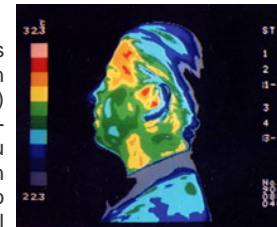

WITHOUT PROTECTION:

Research studies from around the world have illustrated that cell phones carry the potential for radiation exposure, creating a myriad of possible health hazards. One such hazard is that microwave radiation emitted by cell-phones has the potential to heat up human tissue in the area of our head where the phone is pressed against. This thermal (heating) effect can cause headaches, fatigue, tissue swelling, tingling and other severe potential long-term damages.

WITH BIOPRO Cell Chip:

To illustrate that BIOPRO's groundbreaking EMF-Harmonization technology (i.e. the BIOPRO Cell Chip) not only measurably avoids the stress-response otherwise present when you are exposed to harmful EMF-radiation (see research graph), but the chips also have the ability to avoid the thermal (heating) effect described above, state-of-the-art Thermographic Imaging was used to illustrate the effectiveness of the BIOPRO technology in harmonizing dangerous radiation. Clinical thermography is a non-invasive, diagnostic

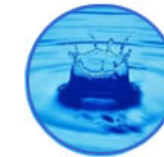

HOW IT WORKS

BIOPRO Cell Chip - **Reprograms** transversal and longitudinal waves of Electromagnetic fields (EMFs) from cell-phones, Measurably **neutralizes the negative effects of EMFs** from cell-phones on bio-energetic field of the human body, **Information** permanently stored inside the BIOPRO Chip system, plus the energy of light guarantee **flawless and indefinite operation**

BIOPRO is based on **3 core principles**:

1. Harmonization/Neutralization through Quantum

Physics: Each BIOPRO device is laser-activated with the proper frequency to harmonize harmful waves emitted by EMF devices such as Cell Phones, etc. The principle that the harmonization is based on is substantiated by Quantum Physics Research findings from stud Switzerland.

2. Transference through Water:

The harmonized waves are then transferred into our cellular system through our body's own water. Japanese Scientist Dr. Masaru Emoto proved through his research that water is the ultimate carrier of energy and information. He also showed through 10,000 photographs how water crystals are damaged by non-harmonized EMF. Considering our bodies consist of 75% water (our cells are 90% water), the harmful effects of EMF on our bodies can be extremely severe. BIOPRO-harmonized frequencies are designed to help prevent these harmful effects from occurring.

3. Resonance in Cells:

Prevention of long-term health risks associated with EMFs can be achieved if the energy and information transferred by water into our cells 'sympathetically resonates' with our cell's own frequency/oscillation. BIOPRO harmonized /neutralized frequencies do just that, creating healthy, long-term results and thereby avoiding the body's usual stress response and lowered energy when exposed to EMFs.
