

# DETOX NATURALLY

## **SUPERIOR QUALITY CONSTRUCTION:**

- Dual regulation: switching regulator with over-current and over-voltage protection, adjustable regulator with fold-back circuit, adjustable voltage of .5vdc to 22.5vdc
- State-of-the-art regulator power supply (unlike Transformer Rectifier [TR] technology from 1960s), Clean power supply and discharge, producing more negative ions
- Full digital current display
- Unit costs more due to quality of the parts. Other units are under \$100 dollars, sold for \$495 to \$1900.
- Engineer team has over 40 yrs experience with power supplies from TR units to 30,000vdc used on the moon & beyond.

## **FULL CONTROL OVER AMPERAGE:**

- Amperage is adjusted thru current instead of salt for: 1) Differences in human skin resistance, 2) Differences in the water used, 3) Differences in the electrolyte/ electrolysis
- Full control over current, Others are adjusted via salt with a straight 24 volt current..

## **MOST POWERFUL UNITS ON THE MARKET:**

- 3.0 AMPs and 5.5 AMPs; we produce a more powerful footbath which translates to more negative ions.
- 60 watts and 150 watts

## **SUPERIOR SAFETY FEATURES:**

- We use a regulator making unit safer; TR technology can malfunction & cause ripples/spikes/static interference
- Chassis ground for all internal assemblies to stop any voltage potential ever being on the case.
- UL rated and CE approved components & CSA approved wiring and connectors also
- 3 levels of safety protection: 1) a fallback circuit that turns itself off if it detects too much current; 2) an external fuse that shuts down the machine if the fuse blows; and 3) an internal fuse that offers overall protection for the entire unit

## **SAFER FREQUENCY, NO EMF LEAKAGE:**

- Our units regulators output 10,000 Hertz and NOT 60 Hertz: - other units operate at 60 hertz which is a resonant frequency of a healthy heart, thus they have some potential danger.

## **SUPERIOR WATER MODULE DESIGN- Portable & Ease of use:**

- lasts average of 30 footbaths & disposable without the need to replace separate parts
- Our connections are metallurgical not mechanical, welded connections create for stronger conductivity
- Advanced surface design and round metal rings to enhance the ionic osmosis process; the Optimizer generates ions about 35 times higher than the average footbath
- Use of 100% copper construction and 318 stainless steel for the rings

## **MORE ION PRODUCTION:**

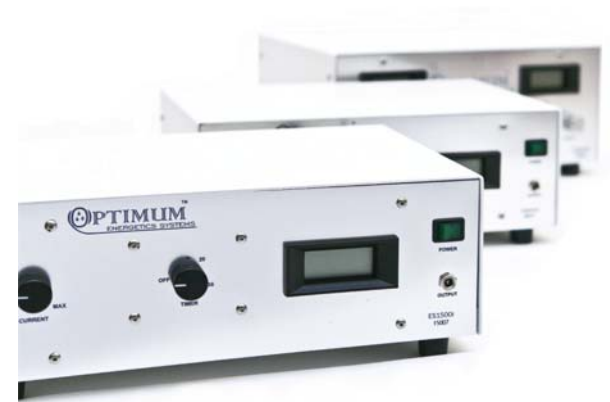

- OPTIMUM FOCUS units' generate IONS at a higher VOLTAGE - Other machines produce ions around 300-400 milliv (or 0.400 volts), very low voltage. OPTIMUM FOCUS runs 35 x higher and a higher cubic per meter rate.

## **SUPERIOR COPPER TUB:**

Our OPTIMUM FOCUS Copper Tub is used for optimum footbath treatment. The copper acts as an additional conductor thereby making the treatment all that more powerful.

## **SUPERIOR HIMALAYAN SALT:**

We use Himalayan Crystal Salt for its balanced crystalline structure, which can be easily metabolized by the body. Regular Table Salt is processed & has lost its natural crystalline structure.

**MOST POWERFUL AND SAFEST MACHINES ON THE MARKET**  
'use anywhere in the world'

'Perfect for Home (3 AMPS/60 watts), Works anywhere in world'

## ES1500i

S  
T  
A  
N  
D  
A  
R  
D

**SYSTEM INCLUDES:** Power Unit, UL approved 6 ft power cords (1 for 110, 220 sold separately), (1) Optimizer (water module), Cleaning brush, Measuring Spoon, Complete set of User Instructions, 2 oz. sample size of Himalayan salt with 84 trace minerals.

3 YEAR WARRANTY , LIFETIME CUSTOMER SERVICE & SUPPORT,  
14 day trial period  
\* LEASE Options (low as \$32 mthly)

- **UNIT:** 12" X 8.5" X 4.5". Adjustable handle tilts power box for convenient visual display of control panel. Simple, modular 'plug & play' system. Light, compact, durable unit.
- **SEPERATE CONTROLS:** Separate timer and meter controls with simple digital readout.
- **VOLTAGE/WATTS:** Input 100-240 vac, Output 2.5-22.5 vdc 60 watts, max, works anywhere in the world
- **FREQUENCY:** Output 10,000 hertz.
- **AMPERAGE:** 3.25 foldback
- **SAFETY:** Power box safety, over-voltage and current fold-back circuit protection with 2 amp fuse. High quality electrical component power system - all components UL Certified. Single power switch controls entire system for added safety.

### OPTIMIZER

Optimizer (Disposable Compact Water Module) with a single cord attachment to any of the OPTIMIZER FOCUS family of machines. Our plates have a welded meteorological connection others don't therefore the conductivity is stronger. \*\* No having to replace the plates manually.

'Perfect for Professionals, double the power (5.5 AMPS/150 watts) Works anywhere in world'

**SYSTEM INCLUDES:** Power Unit, UL approved 6 ft power cords (1 for 110, 220 sold separately), (2) Optimizer (water module), Cleaning brush, Measuring Spoon, Complete set of User Instructions, 2 oz. sample size of Himalayan salt with 84 trace minerals.

3 YEAR WARRANTY , LIFETIME CUSTOMER SERVICE & SUPPORT,  
14 day trial period  
\* LEASE Options (low as \$35 mthly)

- **UNIT:** 12" X 8.5" X 4.5". Adjustable handle tilts power box for convenient visual display of control panel. Simple, modular 'plug & play' system. Light, compact, durable unit.
- **SEPERATE CONTROLS:** Separate timer and meter controls with simple digital readout.
- **VOLTAGE/WATTS:** Input 100-240 vac, Output 2.5- 2.5 vdc 150 watts, max, works anywhere in the world
- **FREQUENCY:** Output 10,000 hertz.
- **AMPERAGE:** 5.50 foldback
- **SAFETY:** Power box safety, dual regulator system, over-voltage and current fold-back circuit protection with 2 amp fuse. High quality electrical component power system - all components UL Certified. Single power switch controls entire system for added safety.

### COPPER TUB

100% pure copper, custom made for any size feet, light, handles for easy carrying, acts as an additional conductor, no polishing necessary, (Round size: 16" D x 7" H)

'Perfect for Professionals, 1 or 2 people, (5.5 AMPS/150 watts each side) Works anywhere in the world'

- **UNIT:** 12" X 10.5" X 5.5". Adjustable handle tilts power box for convenient visual display of control panel. Simple, modular 'plug & play' system. Light, compact, durable unit.
- **SEPERATE CONTROLS:** Double sided separate timer and meter controls with simple digital readout for 2 people.
- **VOLTAGE/WATTS:** Input: 100-240 vac, Output: 2 separate 2.5-22.5 vdc 150 watts, max, works anywhere in the world
- **FREQUENCY:** Output 10,000 hertz.
- **AMPERAGE:** 5.50 foldback each side
- **SAFETY:** Power box safety, dual regulator system, over-voltage and current fold-back circuit protection with 2 amp fuse. High quality electrical component power system - all components UL Certified. Single power switch controls entire system for added safety.

### HIMALAYAN SALT

The Fine Grain Bath Salt contains 84 trace minerals and comes from the Himalayan Mountains on the border of Pakistan. We chose Himalayan crystal salt due to the quality & crystalline structure.
